

Pay almost any bill by credit card—  
even where cards aren't accepted.

## Now the choice of when to use a credit card is up to you.

We started with a simple idea: let everyone pay suppliers how they want. It seems obvious, yet so many businesses couldn't pay by credit card. With Plastiq, you can pay virtually any bill - even if they don't take credit cards. Now there's a smart way to improve your business' cash flow by choosing when and how you pay.

Sign up for free in just  
minutes and tell us who  
you want to pay.

The way you pay is up to  
you—no matter what methods  
your recipient accepts.

Then we pay your  
recipient how they prefer:  
check, wire or ACH.

“Cash flow was a big concern.  
We've leveraged Plastiq to help  
extend payment terms.”

Marian Leitner  
CEO, Archer Roose
